

Water Proof Switch/Socket/Outlet Cover Datasheet

WATER PROOF SOCKET/SWITCH COVER

Specifications

Parameter Category	Technical Specifications	
Product name	Water proof switch/socket/outlet cover	
Part No.	GCS-AC-CA-1000-WPPC	
Product Description	1. Product Type 2. Purpose 3. Fixing	Water proof switch/socket/outlet cover Water proof protection Screw-on

Other Details

1. Color 2. Material 3. Measurement	Black. * PVC Plastic 110mm long x 93mm wide x 50mm high
---	---

Standard

CCC,CE, EN60669-1

Applications

Stylish design with perfect craftsmanship, refinement and reliable performance. Recommended for residential or commercial environment.
--

Environment

1. Ambient operation temperature 2. Relative humidity 3. Application area	-5 to 40 deg C 0 to 95% Indoor
---	--------------------------------------

Cleaning Recommendation

It is not recommended to spray cleaning products directly on to electrical switch panel. Before cleaning, ensure that switches are switched off. Only wipe down with damp or dry cloth.

Note: * Other color to be specified by customer with MOQ
