

Fairmont Makati is a five-star luxury hotel known for its prestigious address in the central business district of Manila; an urban sanctuary where guests can enjoy luxury and privacy at its finest. All 280 rooms are remarkably spacious complete with premium amenities essential to both business and leisure travelers, including the Fairmont Gold. Fairmont Makati offers a range of exceptional venues to meet the unique tastes of every guest, over 1,700 square meters of versatile meeting and function space, a fitness center with state-of-the-art facilities, and one of the city's most lavish spa: the Willow Stream.

With the ongoing Covid-19 pandemic, safety of both the guests and staff remains paramount in this 'new normal'.

Fairmont Makati has taken the initiative to deploy electrostatic sprayers as its new cleaning protocol for its property. The hotel had purchased several units of GuestControl™ ESP-3011 handheld electrostatic sprayers for its guestroom sanitization. GuestControl™ ESP-3011 handheld electrostatic sprayers can clean each room at a shorter time using less liquid disinfectant. It also save laborious housekeepers workload that can be deploy in other important places. This process also in-line with the latest cleaning protocol adopted by most international hotel chains worldwide!

Fairmont Makati always give top priority to its guests and employees safety.
